

MLA0313 Lead Wires (3 Snap-on)

Spare Parts

The unshielded MLA0313 Lead Wires (pack of 3) are suitable for connection to ADInstruments Single and Dual Bio-Amps (via a Bio-Amp Cable), directly to an ADInstruments Quad or Octal Bio-Amp or directly to a GT201 16 Channel Bio-Amp. The lead wires are 98 cm (38") in length with 4 mm (0.16") 'snap-on' connectors for use with disposable ECG electrodes (MLA1010, MLA1010B), Reusable ECG Electrodes (MLA700) or Chest ECG Electrodes. (MLA710). May be cold sterilized and left to air dry.

Caution

Read "Statement of Intended Use" on our website before use. Leads are not supplied sterile. Appropriate Infection Control Procedures should be followed between subsequent subject connections.
